# Davidson County

## ED Visits for Overdose Involving Medications or Drugs with Dependency Potential

**Davidson County Population Estimate**

**Davidson County Med/Drug Overdose ED Visits Last 12 Months**

### Ethnicity Data Missing or Incomplete

- White
- Black
- Hispanic
- Asian
- AI/AN

### Overdose ED Visits for Med/Drugs with Dependency Potential in Davidson County, 2022* YTD

Compared to 126 in Jan to May 2021*

### Data Source:
- NC DETECT: ED; Syndrome: Overdose: Unintentional/Undetermined Medication or Drug Overdose (>14/<66) (ICD-9/10-CM)

### Note:
- *There are known data quality gaps for May-June 2021 that are impacting the shown trends. Interpret the data for these months with caution.

### Note:
- Report is based on initial encounter, unintentional and undetermined intent cases only, for ICD10CM overdose codes of drugs and medicaments with dependency potential within T40, T42, T43, T50.7, and T50.9.

### Note:
- Report is restricted to N.C. residents between the ages 15 to 65 years. Drug classes shown are not mutually exclusive, a person may have more than one drug overdose diagnosis code, therefore, a person may be represented in multiple lines in the graph above. *2020-2021 data is provisional; YTD (Year to date).

### Note:
- NC DETECT is North Carolina's statewide syndromic surveillance system. There may be data quality issues affecting our counts. For training on NC DETECT, contact Amy Ising, ising@ad.unc.edu.
